

Chen Sunglasses Freedom Campaign

Show your concern for blind activist Chen Guangcheng, who exposed the fact that there were **130,000 FORCED ABORTIONS** in Linyi County in 2005.

For this he has been jailed, tortured, denied medical treatment and is now languishing near death under house arrest.

In China, there is a growing Sunglasses Campaign to free Chen.

Show you care and join the international Chen Sunglasses Freedom Campaign by getting your photo taken with sunglasses.

A group of us will be gathering at the time and place below. Then, we'll mail the group photo to Reggie Littlejohn at Women's Rights Without Frontiers to be posted on their English and Chinese websites:
